

RECITAL DIRECTIONS:

If you are in the first half of the recital:

Arrive by 5:15pm

Drop Dancer off at the back door labeled dancers and class moms only.

Make sure they are fully dressed in costumes, shoes, hair, and accessories

Once they have performed they will be brought to the bleachers located at top left side (as you are facing stage) of the audience.

Discretely and quietly you can go and pick up your child and return to your seat and enjoy the show. Please make sure you take off their tap shoes before you go back to your seat. We try to do this so we don't disturb anyone watching the performance.

About 5 dances before the last dance bring you child backstage to be included in the finale. Once you drop them backstage you can go back to your seats.

If you are in the second half of the recital:

If your child is in the first 5 dances after the ballet production you need to meet me back stage during the intermission.

Dancers should as a rule go back stage at least 5 numbers before their dances.

When they are done they will go back to the bleachers and wait to come back down for the finale.

If you are in both the first and second half of the recital

The changing room is the dance room located upstairs near the bleachers where all the dancers stay.

Make sure you give yourself plenty of time to change your child and get them back to their class mom or backstage.

All dancers are in the finale.
